SAMPLE

The 4 roles of AI

Before asking an AI for anything, identify which role you need it to play. This completely changes the quality of the answer.

ROLE	HOW AI HELPS	PRACTICAL EXAMPLE
Assistant	Executes simple, repetitive tasks.	Writing an email, summarizing a meeting.
Analyst	Reads data and documents to generate hypotheses.	Comparing proposals, finding risks.
Creator	Generates first drafts of texts and images.	Creating posts, slides, ads.
Coach	Explains concepts and simulates situations.	Practicing an interview or meeting.

The professional prompt formula

AI responds better when the request has structure. A professional prompt needs to make clear who the audience is, what the objective is, what material should be used and what output format is expected.

PROFESSIONAL PROMPT TEMPLATE

"Act as [role]. My goal is [goal]. The audience is [audience]. Use as context [information]. Deliver in [format]. Before finishing, review possible flaws, risks and points for improvement."

GOLDEN RULE

Never just ask for "a text". Ask for a deliverable with audience, objective, tone, format, length and quality criteria.

SAMPLE

How to choose the right tool

Choosing a tool should start from the task, not from trends.

ChatGPT / Claude Text, ideas, reasoning and long documents.	Perplexity Quick research with verifiable sources.
Gemini / Copilot Inside Google Workspace or Microsoft 365.	Canva AI Design, posts and quick presentations.

IN THE FULL GUIDE
The complete matrix covers 10 types of tasks, 16 professions with ready-to-use prompts, workflows, a prompt library, a safety checklist and a 14-day implementation plan.

A ready-to-use prompt to try today

EXECUTIVE SUMMARY PROMPT

"Summarize [document/topic] in 10 lines for a busy decision-maker. Separate context, conclusion, risks and next steps."

REFINEMENT PROMPT (ALWAYS USE IT NEXT)

"Now review your answer. Identify weak points, missing information, likely errors and a more practical, improved version."

Copy one of these prompts, adapt it to your context and test it today on a real task. The full guide has 20+ more ready-to-use prompts organized by goal.
